DIV OF OIL GAS & MINING

3. How much **additional acreage** was disturbed during the past year? New Mine about 2 acres
4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.
- The mine was developed and about 20,000 tons of material was mined to allow eventual full fledged production. The material mined mostly creates the base for further mining.
5. How much acreage was reclaimed during the past year? None
6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.
7. What is the total disturbed acreage at years end? about 2 acres
8. Briefly summarize any mining and/or reclamation plans for the upcoming year.
- If contracts can be secured, mining will commence. But, until this is completed, the mine will be in-active and on a stand-by basis.

**NOTE:** Section III., "Additional Information" applies only to large mining operations.

### III. Additional Information
